Fairmount Feb. 28/67.

Dear brother Garrison

It has been so pleasant to read your essays in the Independent, to see that you are able once more to wield the pen, altho' I doubt whether you are your own amanuensis. I see also that you were announced to lecture in Brooklyn, which I interpreted as another favorable sign.

Thank Ellie for her note it was a great relief to us.

I write now to enquire particularly whether Helen has been benefited by the last magnetizer she employed, the same I think who was operating on you when Nat saw you. There is a man here who is partially paralyzed, he has tried various physicians & I thought if dear Helen was better, I would

tell him of her case. If you can recom-  
mend your magnetic physician  
please send me his or her address &  
terms.

Love to Helen & Ellie & a bless-  
ing for the baby  
"The rarest ~~and~~ treasure heaven drops down  
The sweetest blossom in Spring's crown!"

Yours affectionately  
Sarah M. Grimké

It would do us all good if you could  
spend a sabbath with us, or even give  
us a few hours.
